

## Sending a MMS

to a DigiCell number

Sending an MMS directly from your handset is EASY!

Most phones have the option of selecting either an SMS or MMS. Just select the MMS option, insert the content you want to send in the message and send it directly to the person's DigiCell number.

If the person receiving the message also has DigiCell's MMS settings on their phone, they will automatically receive the content.

## Sending a MMS

to an E-mail address

MMS subscribers can also send content directly to any email address. The steps are the same as described above but instead of selecting a number to send it to, you select the option to send to an email address. The email address is entered just as you would when sending a regular email. The person receiving the content will be able to view the message content directly from their inbox.

# and the cost?

All this good stuff...sending tunes, capturing moments, spreading life, SHARING FUN! Sending an MMS is at the LOW promotional rate of ONLY \$0.25 (exclusive of tax). Internet usage rates still applies for sending and receiving.

All contents shared using DigiCell's Multimedia Messaging Service are solely those of the authors and do not represent DigiCell unless otherwise stated.

# DigiCell's

# MMS

MULTIMEDIA MESSAGING SERVICE

# how it works!

Multimedia Messaging Service, MMS, works similarly to the SMS Service. However, it enhances this feature by allowing DigiCell Customers within Belize, to exchange fun stuff via their handsets, such as...

# activate!

## DigiCell Premier

Premier Customers must have DigiCell Internet on their handsets. If not already a customer, sign up at any Telemedia Customer Service Center countrywide, where our friendly Customer Service Representatives can then enable MMS.

## DigiCell PrePaid

PrePaid customers must have DigiCell Internet configured on their phones. To activate MMS just send an SMS to 4MMS (4667) with "YES" to accept Terms and Conditions and indicate your specific phone model. For example, if you have a Motorola EM30 send: "yes Motorola EM30". This only needs to be done once. A Representative will contact you to assist you in configuring your phone and give you full accessibility to DigiCell's Multimedia Messaging Service.

\*Some handsets are not supported
